AUTHOR INDEX

Anderson, J.
Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Arbaugh, J.
The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Bhat, G. R.
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Bivin, R. J.
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Block, I.
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Fabric Ignitability and the Behavior of Flammability Behavior, p. 62

Cochran, B. J.
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Damant, G. H.
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Flammability Aspects of Upholstered Furniture, p. 21

The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Finley, E. L.
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Hilado, C. J.
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

LaBossiere, L. A.
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

McCarter, R. J.
Smoldering of Flexible Polyurethane Foam, p. 128

The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

SUBJECT INDEX

Afterflame
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Aging
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Ambient Oxygen Concentration
Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Ambient Oxygen Depletion
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Animal Exposure Chamber
Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

Apparel
Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Apparel Fires
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Apparent Lethal Concentration
Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

Aromatic Polyamide
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Bedding Industry
The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Behavior, Human
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Blowing-Off
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Burn Hazard
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Burn Rate
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Burning Time
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

California Regulations
Flammability Aspects of Upholstered Furniture, p. 21

Calorimetric Study
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

Char Length
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Char Rate
Smoldering of Flexible Polyurethane Foam, p. 128

Chi-Square Statistic
The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Cigarette Test
Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73.

Flammability Aspects of Upholstered Furniture, p. 21

The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Smoldering of Flexible Polyurethane Foam, p. 128

Combustion
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Commercial Materials
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Confined Environment
Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Conformation
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Consumers
The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Consumer Product Safety Act
Voluntary Standards in Consumer Product Safety, p. 5

Cotton
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Smoldering of Flexible Polyurethane Foam, p. 128

Cotton Batting
Flammability Aspects of Upholstered Furniture, p. 21

Cotton-Polyester Blends
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Cushioning
Smoldering of Flexible Polyurethane Foam, p. 128

Extinction Mode
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Extinguishability
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Extinguishment Strategy
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

F-15 Committee, ASTM
Voluntary Standards in Consumer Product Safety, p. 5

Fabric
Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Fabric Strip Procedure
Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Fabric Weight
Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Fabrics, Double-Layer
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

Fiber
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Fire Prevention
The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Flammability Behavior
Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

Flammability Legislation
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Flammability Aspects of Upholstered Furniture, p. 21

The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Flammable Fabrics
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Flame Retardants
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Smoldering of Flexible Polyurethane Foam, p. 128

Flame Spread
Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

Foams
Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Furniture
Smoldering of Flexible Polyurethane Foam, p. 128

Furniture Flammability
Flammability Aspects of Upholstered Furniture, p. 21

Furniture Materials
Flammability Aspects of Upholstered Furniture, p. 21

Furniture, Upholstered
Flammability Aspects of Upholstered Furniture, p. 21

Garments, Multilayer
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Glowing
Smoldering of Flexible Polyurethane Foam, p. 128

Heat Absorption
Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Heat Flux
Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Heat Release
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

Heat Transfer
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

HR Foam
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Ignitability
Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

Ignition Sources
Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Inhibitor
Smoldering of Flexible Polyurethane Foam, p. 128

Labeling
Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Linear Burning Rate
Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Mass Burning Rate
Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Mattress Flammability
The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Mattresses
Flammability Aspects of Upholstered Furniture, p. 21

Methenamine Tablet
Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Methodology Standards
Voluntary Standards in Consumer Product Safety, p. 5

Mice, Swiss Albino
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

NASA Animal Exposure Chamber
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Neoprene
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Oxidative Pyrolysis
Smoldering of Flexible Polyurethane Foam, p. 128

Oxygen Index
Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Smoldering of Flexible Polyurethane Foam, p. 128

Oxygen Sensitivity
Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Polyester
Calorimetric Study on the Burning of Double-Layer Fabrics, p. 218

Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Polymeric Materials
Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Polymers, Synthetic
Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Pyrolysis
Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Pyrolysis Products
Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

Ranking Systems
Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

Rats, Wistar R
Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

Rayon
Smoldering of Flexible Polyurethane Foam, p. 128

Regulations, Mattress Flammability
The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Safety
Voluntary Standards in Consumer Product Safety, p. 5

Standards, Flammability
Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Standards
Voluntary Standards in Consumer Proudct Safety, p. 5

Smoke
Smoldering of Flexible Polyurethane Foam, p. 128

Smoke Generation
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Smoldering
Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Smoldering of Flexible Polyurethane Foams, p. 128

Surface Sensors
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Synergism
Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Temperature
Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Test Conditions
Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Tests, Flammability
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Flammability Aspects of Upholstered Furniture, p. 21

Providing Flame Resistant General Apparel: An Orderly Approach, p. 10

Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

Smoldering of Flexible Polyurethane Foam, p. 128

Tests, Toxicity
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Textiles
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Extinguishability of Flammable Textiles: Part I. Statement of the Problem, p. 155

Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Thermoplastic Fabrics
Fabric Ignitability and the Measurement of Flammability Behavior, p. 62

Flammability Aspects of Upholstered Furniture, p. 21

THPOH-NH_3
Heat Absorbed by Surface Sensors from Multilayer Garments as Affected by Fiber, Finish, and Conformation, p. 268

Time to Death
Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Relative Toxicity of Pyrolysis Pro-

Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

Time to Incapacitation
Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Toxicity
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

The Impact of Mattress Flammability Regulations on Consumers and the Bedding Industry, p. 235

Toxicity, Relative
Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

Toxic Threat Index
Relative Toxicity of Pyrolysis Products of Polymeric Materials Using Various Test Conditions and Ranking Systems, p. 288

TRI Flammability Analyzer
Extinguishability of Flammable Textiles: Part II. Effects of Ambient Oxygen Concentration, p. 166

Upholstered Furniture
Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Upholstery
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Flammability Aspects of Upholstered Furniture, p. 21

Smoldering of Flexible Polyurethane Foam, p. 128

Urethane Foam
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Flammability Aspects of Upholstered Furniture, p. 21

Relative Toxicity of Products of Pyrolysis and Combustion of Polymeric Materials Using Various Test Conditions, p. 193

Urethane Foam, Flexible
The Effects of Aging on Fire Retardant Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 277

Flammability Aspects of Flexible Polyurethane Foams Commonly Used in Upholstered Furniture, p. 73

Smoldering of Flexible Polyurethane Foam, p. 128

USF/NASA Fire Toxicity Screening Test
Evaluation of Some Commercial

Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141

Voluntary Standards
Voluntary Standards in Consumer Product Safety, p. 5

Wool
Evaluation of Some Commercial Materials Using the USF/NASA Fire Toxicity Screening Test Method, p. 141
